Upon request also available in 25 l canisters.

Tip: Also available upon request in 186 RAL and 1950 NSC colour tones.

## MANUAL PROCESSING

### Finished surface in 2 days, 2 coats

1. First coat on raw wood approx. 35 ml/m<sup>2</sup>.
2. Mistakes in the wet coating can be corrected up to 15 minutes after the first application.
3. Drying time approx. 10 - 12 hours (normal climatic conditions, 23 °C/50 % rel. humidity). Lower temperatures and/or higher humidity can increase drying time. Allow for good ventilation.
4. Second coat approx. 35 ml/m<sup>2</sup>. (For renovations, normally 1 coat on a cleaned surface suffices.)
5. Drying time approx. 12 hours; see point 3.

## RECOMMENDED USE

Osmo Country Colour is highly recommended for all woods in the exterior where exceptional durability is asked for: timber cladding, balconies, windows and window shutters, gates, pergolas, wooden panels, garden furniture and summer houses, carports, etc. Ideal for renewing previously treated, weathered wood surfaces or old microporous coatings.

## ADVANTAGES

- > The wood structure remains visible
- > All colour tones can be mixed with each other
- > Country Colour is weather-resistant and robust against small damages
- > Saliva-resistant and sweatproof, suitable for children's toys

## TOOLS
